Solar Storage Panel: Strategic investment, immediate reimbursement, or waste of capital? Understand how your operating costs can be minimised by Solar Storage

PV Operations and Financial Strategies 2020 Digital Conference & Exhibition

Thursday, November 12, 2020 -

REGISTER : <https://reutersevents.com/events/pv-usa/>

The panelists will discuss the following topics:

- Understand how the PV audit and retrofit cost strategies work in order to introduce BESS into your existing portfolio
- Learn how companies benefited to incorporating solar + storage into their assets
- View the costs associated with solar battery storage in order to understand cost reductions and how it could benefit your assets
