Protecting Knowledge Assets: Case and Method for New CISO Portfolio

RSA Conference 2017

Thursday, February 16, 2017 -

Thursday, February 16, 2017

RSA Conference 2017

"Protecting Knowledge Assets: Case and Method for New CISO Portfolio," Moderator, RSA Conference 2017, February 2017.

The almost universal failure of organizations to protect "crown jewel" knowledge assets is soon to end due to a new annual survey exposing it to C-suites and boards. This talk will summarize epic vulnerabilities, prioritization failures and communication gaps revealed by the survey, and then offer a detailed six-point framework to address those findings and the expanded portfolio of the CISO entailed.
