Intellectual Property 101 for General Corporate Counsel: The Basics of Patent, Trademark, Copyright, and Trade Secret Law

Monday, May 9, 2016 -

Monday, May 9, 2016

This seminar is for general corporate counsel and is also a good refresher for intellectual property specialists. It is for in-house counsel who have responsibility for aspects of intellectual property along with other legal areas but who do not specialize in intellectual property. A prior seminar addressed “hot topics” in IP law. This seminar will address the basics of four major areas of intellectual-property law: patents, trademarks, copyrights, and trade secrets. In doing so, the seminar will also address basic considerations for in-house counsel.

Kilpatrick Townsend Partner [Steve Gardner](#) will address these issues and your questions.
