## Daniel Dries Joins Kilpatrick Townsend in Silicon Valley

April 27, 2017

---

**MENLO PARK (April 27)** – Kilpatrick Townsend & Stockton announced today the addition of **Daniel Dries, Ph.D.** to the firm's Silicon Valley office as an associate in the **Electrical Engineering and Software Team** in the firm's internationally recognized Intellectual Property Department.

Dr. Dries focuses his practice on patent preparation, prosecution, and related counseling in a variety of technologies including optics, photonics, advanced sensor technology, wireless communication technology, and software.

Prior to joining the firm, Dr. Dries served as a Business Development Strategist at Palantir Technologies. While in law school, he was a Patent Agent at an IP Boutique firm. Dr. Dries earned his J.D. from the University of Houston Law Center. He received his Ph.D. in Physics & M.S. in Physics from Rice University and his B.S. in Physics from Cal Polytechnic State University.
