New Developments in ICANN Domain Name System

Thursday, April 7, 2016 -

Retail & Consumer Goods Webinar

"New Developments in ICANN Domain Name System," Speaker, Retail & Consumer Goods Webinar, April 2016. There have been recent development and issues within the ICANN domain name system that could affect the existing domain name system and have an impact on your company.

Topics to discuss:

- Second round of General Top Level Domain Names ("gTLDs")
 - What will be the possible timing? And will the process be the same?
- Review of rights protection mechanisms (RPM review)
 - Could there be an amendment of the UDRP?
- Divestiture of the US government's current oversight role
 - What are the concerns regarding a post-US transition?
