Patent Quality, Ranking, and Valuation

KTIPS (Kilpatrick Townsend Intellectual Property Seminars)

Monday, August 3, 2020 -

Sizing-up a patent or portfolio can seem nearly impossible. An examination of the important vs. misleading factors in determining patent quality, ranking, and valuation will be discussed at this session. Distinguishing as-drafted quality from the valuation of issued patents will be broken down by the panelists. The roles and contributions of patent attorneys and vendor software will be addressed for the best, most efficient result for any quality, ranking, and valuation analysis.
