Suzanne Walker and Stephen Donahoe presented *Succession Planning - What Are We Planning For?* at the Massachusetts Bankers Association Annual Convention. The presentation description is below.

Succession planning for management and the board requires a thoughtful process that recognizes the importance of talent and expertise as it relates to the strategic plan of the bank. Those banks that build a succession plan that aligns with their strategic plan recognize the importance of building a pipeline, skill development and diversity (gender, age and racial) at the management and board level.
