

Patent Litigation

Claim Victory

As your patent investments prosper and grow in value, commercial disputes often become inevitable. At Kilpatrick Townsend, we protect our clients' most important products and brands in patent infringement and enforcement disputes in federal and state court, before the International Trade Commission (ITC) and Patent Trial and Appeal Board (PTAB), and in mediation or global arbitration. Our 45-member patent litigation team has handled hundreds of cases, representing clients in district courts all over the United States, as well as before the U.S. Court of Appeals for the Federal Circuit, at the International Trade Commission, and in post-grant proceedings before the U.S. Patent and Trademark Office. We leverage our unmatched litigation, technical, and industry experience when anticipating and strategically managing all aspects of a patent litigation case. When a case advances to trial, our nationally-recognized litigators zealously advocate for our clients on high-tech, high-stakes matters involving biotechnology, chemistry, electrical, and mechanical technologies; telecommunications; pharmaceuticals; computer software and hardware; consumer products; and medical devices.

Services
